Third Quarter 2020

For Sunrise Customers: BelGioioso Delivers Authentic Italian Culture in Every Bite

Born and raised in Italy, a fourth-generation cheesemaker named Errico Auricchio moved to the US in 1979 with a dream of expanding his family's cheesemaking businesses. With the growing US demand for Italian

BelGioioso continues to craft authentic Italian cheese using the best local ingredients. With strong local farming partnerships, BelGioioso invests in premium milk featuring higher butterfat and protein levels. This produces high performance and superior flavored cheese. BelGioioso relies on natural brining and traditional aging to guarantee consistent flavors across their collection of 28 Italian cheeses. These authentic artisanal processes have heled BelGioioso realize Errico's dreams.

Sunrise Food Service carries eight Belgioioso cheeses, including crumbly gorgonzola, parmesan, mozzarella curds, fresh mozzarella and mascarpone. Mascarpone is a beloved favorite among bakers – often included in tiramisu and cream puffs. All of these cheeses are wonderful components to the pastries and desserts commonly made by Sunrise customers. Parmesan is used in savory breads, and mozzarella curd is popular in ethnic pastries.

"We have had a fantastic experience working with the Sunrise team," said Danielle Shaeffer, Belgioioso's rep in California. "With their support, we have broadened our reach, gained traction and are looking to expand our product selection in the near future."

Whether crafting a flaky, savory pastry or a delicious, decadent dessert, BelGioioso provides the rich flavor of Italy that will help your operation form "beautiful and joyful" baked goods, just as the name promises.

Ask your Sunrise sales representative to learn more about how BelGioioso products can improve your baked goods!

with Our Customers

The significant challenges of the COVID-19 pandemic have brought tremendous uncertainty to the foodservice industry.

Throughout the crisis, our team at Sunrise Food Service has been proactive in taking extra steps to help our customers succeed. Now more than ever, we see it as our responsibility to take action and be a resource for those who rely on us. We continue to work closely with our vendors to make sure we provide all of the essentials – as operators fight to adapt their offerings, meet regulatory mandates, and ultimately to sustain or even build sales.

Here are a few examples of how we have stood in support of our valued customers to combat the challenges of COVID-19:

- Created a COVID-19 resource landing page on our website.
- Uploaded a Bakery Re-Open Kit that provides relevant information and tips to succeed throughout the reopening process.
- Sourced a volume of protective masks made available for sale.
- Helped customers adapt by providing retail-sized packages for resale.
- Focused weekly web content on practical adjustments for operators to succeed through strict safety measures.

Sunrise Stands with Our Customers Continued

 Developed and shared innovative and creative ideas for operators to capitalize on recent holidays and celebrations (Easter, Mother's Day, Class of 2020 Graduation, etc.).

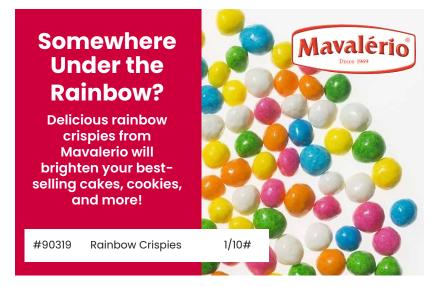

These efforts have been spurred by our steadfast commitment to providing our customers with all of the necessary resources they need to thrive. Whether it is traditional foodservice products, surgical masks, or anything in between, Sunrise will continue to be your partner to adapt and prosper through the duration of the pandemic.
